INTRODUCTION

In response to a resolution of the Joint Legislative Audit Committee and in compliance with federal Office of Revenue Sharing regulations, we have conducted a financial audit of the Office of the Lieutenant Governor. This audit was conducted under the authority vested in the Auditor General by Section 10527 of the Government Code.

The Lieutenant Governor acts as President of the Senate and becomes Governor when a vacancy occurs in that office, according to Section 9, Article 5 and Section 10, Article 5 of the California Constitution. He directs the administration of programs assigned to him by statute and administrative request.

The Office of the Lieutenant Governor and programs of the office are supported by appropriations from the State's General Fund, federal funds, intrafund transfers, and by conference fees.

AUDITOR'S OPINION

To the Joint Legislative Audit Committee of the California Legislature:

We have examined the combined balance sheet of the Office of the Lieutenant Governor as of June 30, 1979 and the related statements of financing sources, expenditures, and changes in fund balance and operating clearing for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the aforementioned financial statements present fairly the financial position of the Office of the Lieutenant Governor at June 30, 1979 and the results of operations and changes in fund balance and operating clearing for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The column amounts on the accompanying financial statements captioned "Totals - Memorandum Only" for June 30, 1979 are not necessary for a fair presentation of the financial statements but are presented as additional analytical data and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

WESLEY E. VOSS
Assistant Auditor General

OFFICE OF THE LIEUTENANT GOVERNOR
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 1979

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements reflect the financial position and results of operations of the Office of the Lieutenant Governor. The statements have been prepared in conformity with generally accepted accounting principles applicable to state and local governments as prescribed by the American Institute of Certified Public Accountants and by the National Council on Governmental Accounting.

The accompanying financial statements are structured into a Governmental Fund Type, a Fiduciary Fund Type, and an Account Group. The Office of the Lieutenant Governor accounts for only its portion of the two fund type categories. The State Controller maintains the central accounts for all state funds and annually publishes fund statements.

GOVERNMENTAL FUND TYPES

Governmental Fund Types are those through which most governmental functions are financed. The acquisition, use, and balances of the government's expendable financial resources and the related current liabilities--except those accounted for in Proprietary Funds--are accounted for through governmental funds. The General Fund is the Governmental Fund Type in the Office of the Lieutenant Governor.

General Fund

This fund includes all financial resources not accounted for in another fund.

The Governmental Fund Type is maintained on the modified accrual basis of accounting. These are some of its more significant elements:

Income

Throughout the fiscal year all income, except for certain reimbursements which are recorded when billed, is accounted for on a cash basis. At June 30, the accounts are adjusted to accrue all earned but uncollected income.

Expenditures

Expenditures are accounted for at the time claims for payment are filed with the State Controller. At June 30, all valid expenditure commitments are accrued as expenditures including encumbrances outstanding against budget appropriations for which no goods or services have been received.

Liabilities

Retirement Plan - Regular employees of the office are members of the Public Employees' Retirement System (PERS) which is a defined benefit, contributory retirement plan. The amount the office and employees contribute to PERS is actuarially determined under a program in which contributions plus retirement system earnings provide the necessary funds to pay retirement costs as accrued. Retirement contributions for the year totaled \$22,143.

Vacation and Sick Leave - Costs of vacation and sick leave are charged when these benefits are used rather than when they are earned.

FIDUCIARY FUND TYPES

Fiduciary Fund Types are used to account for assets held by a governmental unit as a trustee. The Fiduciary Fund Type for the Office of the Lieutenant Governor is the Special Deposit Fund--an expendable trust fund used to account for monies for the Border Area Development Study, the Border States Commission, the California Preschool Conference, and the New Opportunities Conference.

ACCOUNT GROUP

The Account Group is used to account for general fixed assets. Assets purchased, except for those acquired under an installment purchase contract (as explained in Note 3), are recorded as expenditures in the appropriate fund in the year of acquisition or encumbrance. General fixed assets increased by a net of \$44,588 during the fiscal year.

2. BUDGETED FINANCING SOURCES AND EXPENDITURES

The amounts shown under "Budget as Adjusted" for financing sources and expenditures reflect the Governor's Budget after allowing for adjustments by the Budget Act, interim statutory changes affecting appropriations, and authorized executive budget revisions issued during the year.

3. INVESTMENT IN GENERAL FIXED ASSETS

This account includes an unpaid balance of \$23,983 at June 30, 1979, the balance represents the unpaid amount on an installment purchase contract that is payable over the next 60 months in equal monthly installments of \$515.64. The monthly installments include interest of 4 percent on the unpaid principal.

4. MISCELLANEOUS ADJUSTMENTS

This account shows the difference between the net amount of financing sources, expenditures, abatements, and reimbursements accrued as of the previous June 30 and the actual amount of financing sources, expenditures, abatements, and reimbursements related to the prior year but obtained during the current fiscal year.

5. OPERATING CLEARING

The Operating Clearing account is the connecting link between the records of the various state agencies and the central fund accounts of the State Controller for the General Fund and other funds not accounted for entirely by one agency. The balance at June 30 represents the net assets and liabilities for which the Office of the Lieutenant Governor is accountable.

6. LEASES

The following is a yearly schedule of the future minimum rental payments required under operating leases that have initial or remaining noncancelable lease terms exceeding one year as of June 30, 1979:

Year ending June 30:

1980	\$4,158
1981	<u>2,426</u>
Total Minimum Payments Required	<u>\$6,284</u>

For the fiscal year ending June 30, 1979, the total rental expenses for all operating leases, except those with terms of a month or less that were not renewed, was \$1,733.

OTHER INFORMATION

As an integral part of our examination, we reviewed the accounting procedures and related system of internal accounting control at the Office of the Lieutenant Governor and at the Department of General Services (which maintains the office's accounting records) to the extent we considered necessary to properly form an opinion concerning the fairness with which the office's financial statements present its financial position and results of operations in accordance with generally accepted accounting principles consistently applied.

Our review enabled us to suggest improvements which would result in better operating procedures and controls. A management letter describing the suggested operating improvements was issued to the Office of the Lieutenant Governor in conjunction with certain recommended adjusting entries necessary to achieve compliance with generally accepted accounting principles.

The Office of the Lieutenant Governor generally concurs with the suggested operating improvements and adjusting entries.
